

Friday 8th March Homework. Due in: Friday 22nd March

It's British Science week so our homework, over the next two weeks, will be linked to science. The Science Week theme is 'Time'. Please complete one of the activities below, ready to show your class. You can choose how to present your homework; for example, you could make a PowerPoint presentation, written fact file, labelled diagram or even some junk modelling!

<p>Complete the 'Get Set Jellies' activity on p.11 of the British Science Week pack. Find it on the MJS website by clicking on 'Science Week 2024'.</p>	<p>Tell us about a scientist who has made amazing advances in science and how these link to time.</p>	<p>Show how you have developed your MJS Proud skills and your working scientifically skills together over time.</p>	<p>Show how time has been important in a science topic you have learnt about.</p>
<p>Tell us about a member of your family who works in STEM. How is time important in their job?</p>	<p>Complete the 'Design a Farm of the Future' activity on p.19 of the British Science Week pack. Find it on the MJS website by clicking on 'Science Week 2024'. You can use Minecraft for this one!!!</p>	<p>Are you interested in a STEM career? Tell us about it and how time will be important in that role.</p>	<p>Complete the 'Make your own Pendulum Timer' activity on p.12 of the British Science Week pack. Find it on the MJS website by clicking on 'Science Week 2024'.</p>

For the link needed for some of these tasks and for more activities to do at home linked to time, follow this link: <https://melbourne.secure-primarysite.net/science-week-2024/>
